

122-key Twinax Style Keyboard / Emulation Bundles

Give Any PC Full 122-Key Twinax-Style Functionality

We've bundled Nlynx Technologies award winning emulation products with our great new 122-key keyboards to create productivity enhancing options for your iSeries AS/400 users.

Eliminate retraining

Our 122-key Twinax Style keyboard provides the same layout as a twinax terminal. So when you decide to make the switch from the twinax terminal to a PC, your users won't need to learn a new keyboard layout for those functions that are unique to the iSeries AS/400 environment.

The Enter, Field Exit, Error Reset, Help, Play and Record keys are all where they are supposed to be. The special 5250 keys are labeled in blue for fast and easy location.

Highlights:

- ✓ Choose the ES/PCI bundle for Twinax connected PCs (Supports AS/36 too!)
- ✓ Choose the ES/TCP bundle for Ethernet connected PCs
- ✓ No special keyboard drivers required (which means that your PC applications will continue to work as you expect them to)
- ✓ Full 5250 keyboard layout with Field Exit, Error Reset, Sys Req, Dup, etc.
- ✓ All 24 Function keys
- ✓ No confusion or retraining when moving from twinax terminals to PCs with 5250 emulation
- ✓ Key caps labeled with both 5250 functions and PC functions
- ✓ Tactile feedback operation, quiet click
- ✓ Curved profile with user-adjustable angle
- ✓ Windows "Start" and "Right-Click" keys
- ✓ Solid keyboard, made in USA

Increased user productivity and fewer errors

Save keystrokes. Our Twinax style keyboards eliminate the need to learn complicated keystroke combinations to accomplish simple AS/400 functions. You no longer need to hit Shift + F12 in order to get F24. You just hit F24. You'll no longer need to CALCULATE that in order to get the F19 key you need to key in Shift and F7.

Award Winning Emulation Software

Whether you choose ES/PCI for Twinax connected PCs or ES/TCP for your TN5250 connections, our emulation software provides the productivity enhancing features you need.

- ✓ Hot Spots for point and click functionality
- ✓ Keyboard Macro Recording and Playback
- ✓ Great printer support
- ✓ ETU File transfer support
- ✓ Tear away customizable toolbars
- ✓ Cut and Paste to and from emulation
- ✓ Customizable user preferences
