

V5RxMx SNMP print driver Fixes for OS/400 - Current as of 10/29/2003

The following PTFs are general fixes for any LAN-attached printer using the **SNMP** print driver which uses HPT (Host Print Transform):

V5R1

5722SS1 Si08073 (1000)

Si09496 (1000)

V5R2

5722SS1 Si08084 (1000)

Si09891 (1000)

Si06960 (3021)

5722TC1 Si08299 (1000)

Note: The 4-digit number following the PTF number is the Cumulative PTF Package containing the PTF. If the number is (1000), the PTF is not on a Cumulative PTF Package and can be ordered using ECS (**SNDPTFORD**).
